

# Four Change.org

## *To Get Kelowna working*

The past 6 years have seen delay & dysfunction at City Hall. Decisions are postponed, plans delayed, the talk goes on... while a slow economy affects us all. We want Council to work together and we need leadership. It's time for ordinary people to step forward and speak for a new direction. **Four Change.org** is a non-profit, broad group of regular citizens who are concerned about the current direction of city council.

1) We believe in four principles:

- 1 Greater leadership on council
- 2 More effective decision making
- 3 Better teamwork throughout our city
- 4 Focus on the big picture - not pet projects

2) We support four incumbents. Robert Hobson, Andre Blanleil, Luke Stack, and Graeme James. These four are experienced, effective, and share our values.

3) We will support four new strong candidates for council. We'll say why and share their resumes. This is our mandate and explains our name, **Four Change.org**.

4) If you believe in this cause, please consider joining us. We're grass-roots and an official Campaign Organization under municipal election rules. To help get the word out, we'll need donations, if you see fit. (More than \$100 requires filing of names w/ Chief Electoral Officer).
